**Motor Vehicle Sales Tax Rates by State
As Of October 1, 2003, and Tax Credit Application**

Section 212.06(7), Florida Statutes (F.S.), allows a credit to be given on tangible personal property brought into Florida where a like tax has been lawfully imposed and paid in another state. If the amount paid is equal to or greater than the amount imposed by Florida, no additional tax is due. If the amount is less than the amount imposed in Florida, only the difference between the two is due. However, it is presumed that tangible personal property used in another state, territory of the U.S., or District of Columbia, for six months or longer before being brought into Florida, was not purchased for use in Florida.

Credit shall be given for a like tax paid in another state, whether the tax has been paid to the state, or to a county or city (local taxes) within the other state, and provided the like tax is related to the transaction.

Section 212.08(10), F.S., allows a partial exemption for a motor vehicle purchased by a resident of another state. The tax imposed is the amount of sales tax that would be imposed by the purchaser's home state if the vehicle were purchased in that state. The tax collected is Florida tax and is to be remitted to the Florida Department of Revenue. The nonresident purchaser is required to complete Form DR-123, Affidavit for Partial Exemption of Motor Vehicle Sold for Licensing in Another State, declaring his/her intent to license the vehicle in his/her home state within 45 days of the date of sale. The partial exemption for a motor vehicle sold in Florida to a nonresident purchaser **does not** apply to a nonresident corporation or partnership when:

- * An officer of the corporation is a Florida resident;
- * A stockholder who owns a least 10 percent of the corporation is a Florida resident; or
- * A partner who has at least a 10 percent ownership in the partnership is a Florida resident.

The partial exemption will continue to apply if the vehicle is removed from Florida within 45 days after purchase and remains outside this state for a minimum of 180 days, regardless of the residency of the owners or stockholders of the purchasing entity.

Currently, the states of Arkansas and Mississippi impose a sales tax on motor vehicles, but they **DO NOT** allow a credit for taxes paid to Florida. Residents of these states should be made aware that they are required to pay sales tax at the rate imposed by their home state to Florida when they purchase a vehicle in Florida and will also be required to pay tax to their home state when the vehicle is licensed in their home state.
